The Problem

Self-Learning

Usually we **YouTube**

but there are a lot of videos !

The Solution

Create a website

What a beginner needs ?

Explains everything from scratch

In a simple way

The Competition

The websites that I found...

<https://skateboardgb.org/learn-how-to-skateboard>

<https://www.masterclass.com/>

<https://www.brailleskateboarding.world/>

<https://www.goskate.com/>

Target Audience

EVERYONE WHO LIKES SKATEBOARDING

But mostly an age group from 15 to 30

And also kids from 5 years of age

if they know how to use a website.

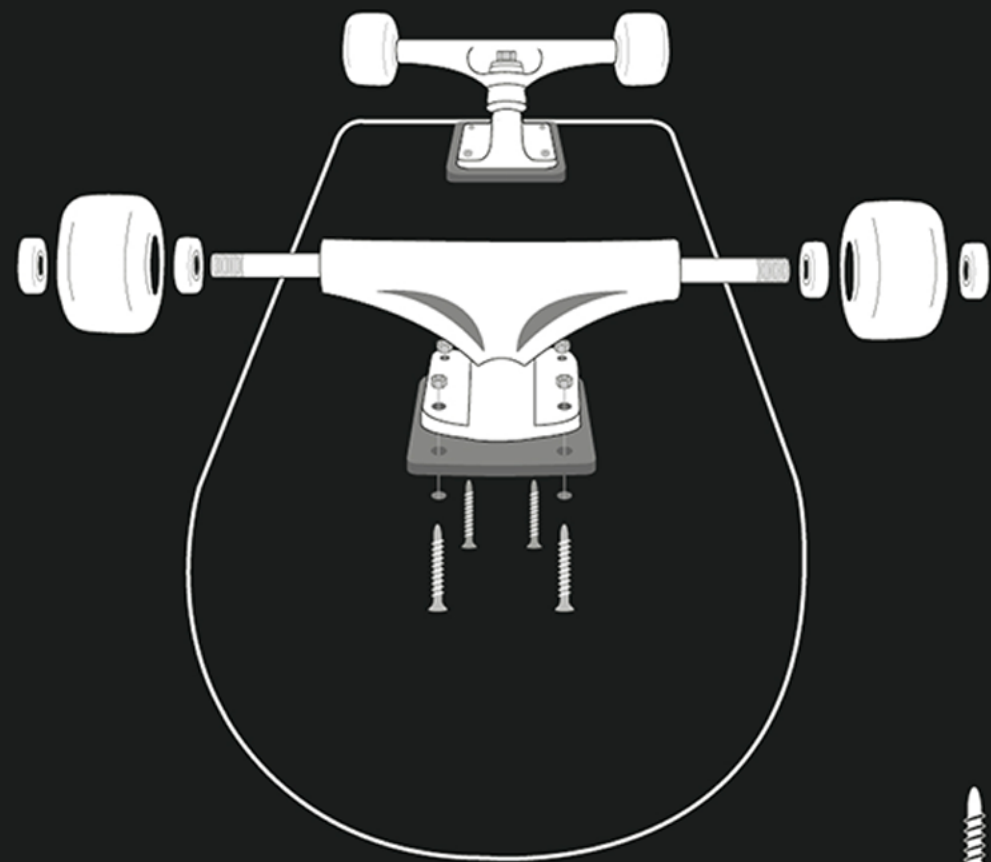

Research

YouTube Videos

Skateboarding Parks

Thank You
